

The background of the cover features a large, abstract, curved shape that resembles a modern chair or a piece of furniture. The shape is divided into three main sections: a light gray section on the left, a dark gray section on the top right, and a light wood-grain section on the bottom right. The wood grain is a light, natural tone with a vertical orientation.

HUBBARD

LOOKBOOK SPRING/SUMMER 2021

CHRISTOPHER HUBBARD

Principal, Creative Director

In 2008, Christopher Hubbard formed Pensare Group, Inc., as a sales agency offering luxury products and services to the interior design community. His showroom in River North, Chicago, represented several international luxury brands such as Rug Art and Louis Poulsen.

In 2015, Christopher shifted his focus to create Hubbard Design Group.

Christopher utilized his design degree to create a made-to-order, bespoke collection of furniture for the industry and his discerning clientele. Two years later, Christopher expanded the business when he began to offer his curated collection of textiles to interior designers. He traveled door-to-door with his collections, cementing his reputation for the sales experience his customers relish along the way.

Today, Hubbard Design Group's collections are represented through luxury designer showrooms and a professional trade network.

WANE

This curvilinear dining chair is perfect with almost any aesthetic. Hand-bent steel is wrapped around cushions comprised of medium-density foam.

LOFT

Blackened steel provides the foundation for this open and airy lounge chair. The taut seat and back are surprisingly supple and comfortable.

GULL

The sweeping curve of the Gull dining chair invites and assures a relaxed dining experience. Tight upholstery with an oak or walnut frame.

COURBE

An eclectic dining chair with a curved back and wood frame. A chair offering superior comfort, the Courbe is sure to be a hit at your next dinner party.

BALANCAR

This stylish lounge chair features a stepped wood frame and curved leg. Finished with foam and down cushions, and welt detailing, the Balancar forms to the body to help bring you to a state of total bliss.

CLIFTON

Minimal and chic is the only way to describe this timeless sectional. No detail for this essential piece has been overlooked. Horsehair webbing, goose and down feather cushion fill and hand-tied coil springs are the many attributes that make this a darling of the collection.

GRANDE

The highly stylized Grande sofa showcases beautiful welt detailing and octagonal-shaped legs. Goose and down feather fill throughout. True to its name, the Grande offers a high level of formal elegance.

DUKE

Stately and sublime. This credenza features reverse bevels, soft-close doors and drawers, and Macassar Ebony veneer. Duke is equally fitting, and an excellent solution, for corporate and residential designs

CHAMBER

A majestic dining or hall table. Evoking concert halls and musical instruments alike, Chamber's black crystal glass top compliments its base of playful brass cylinders that are randomly but strategically placed. In all, a piece that exudes confidence in its design and execution.

THISTLE

Inspired by nature, Thistle has a shape that is both edgy and bold, yet sweeping and oh so agreeable. Ceruse finish, brass edge banding, and your choice of inset glass or solid surface top. Thistle is a unique offering for a range of environments.

ARIA

A pair of pedestals. Room to sit,
room to think—the airiness of Aria
inspires deep breathing.
Wood, stone, or glass top option.
Perfect as a dining table, executive
desk, or conference table.

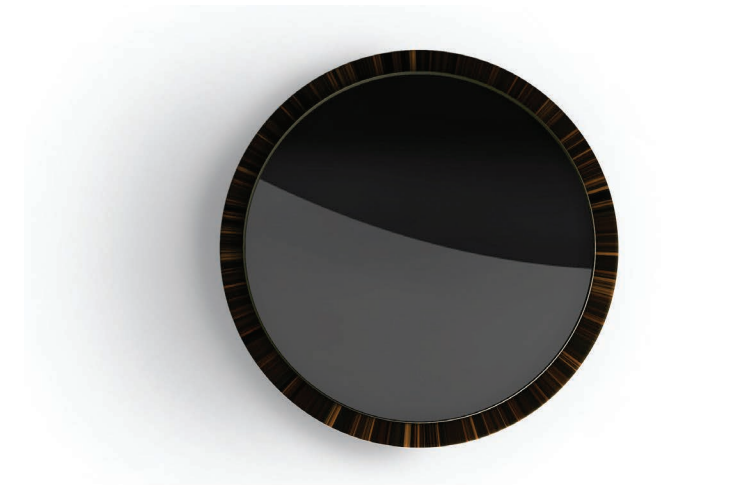

TRINITY

A table that is sure to impress. Fabricated in steel, Trinity's construction, along with its stone or wood top options, make it a versatile choice—as excellent an accompaniment for built-in seating as it is a stand-alone dining table.

COMPASS

Reminiscent of an explorer's compass, it may be hard to resist running your fingers over the sensuous, curved top with glass inset. The legs, set on the radius, sail the winds and complete the look.

XANDER

A chic and timeless design that exudes opulence. Presented in Macassar Ebony veneer with bronze trim and a black crystal top, Xander is the hard-to-find solution for many a discerning interior.

ALTO

Inspired by architecture and its use of space, the Alto incorporates all the materials found in buildings: metal, wood, and glass. The range of applications for this stately console is almost endless.

ARANHA

Inspired by the Ponte Dom Luís bridge in Porto, Portugal, this cantilevered console is whimsical, fascinating, delightful, and trustworthy.

SEDA

A simple yet elegant lighting collection, Seda is designed with a Corian shade that provides a warm light source. Available in polished brass or stainless steel.

SHI

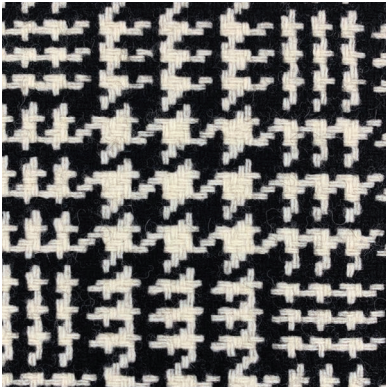

Let it rain. This accommodating umbrella stand features a black metallic felt lining that prevents rust and repels water.

TEXTILES

Christopher Hubbard has been cultivating our esteemed textile collection for many years. He has taken Europe as his muse: the finest wools from Scotland and the finest mohair's from Italy are thoughtfully curated and continuously represented in this collection. The pallet consists of neutrals, cool grays, blues, and navies while traditional British patterns, tailored menswear weaves, sleek lines, and luxurious and comfortable textures bring the collection to life.
